Serial No.:	09/915,132)	Atty. Docket No.: SEA0820P1120US
Filed:	07/25/01)	Group Art Unit: 3751
For:	SPURT MINIMIZING DISPENSING STRUCTURE)	Examiner: Jacyna T. Casimer

SUPPLEMENTAL REISSUE DECLARATION

As the below named inventor, I hereby declare that I believe the original patent to be wholly or partly inoperative, or invalid by reason of the patentee claiming more or less than he had the right to claim in the patent. One error upon which reissue is based is the failure in the original patent to have a claim with the broader scope of new claim 77 which is similar in most respects to original patent claim 18, but is broader in certain aspects in that the passage of the body conduit is not recited as having a "substantially constant" open area, and the open area is not recited as being "sized to resist flow of the viscous fluid therein when said lid is pried off of said body."

I hereby declare that, at the time the application was filed, and during prosecution, I did not appreciate that the claim language originally employed and amended included unnecessary limitations in view of the prior art until later pointed out by one of the attorneys of record in this reissue application.

The errors connected in this reissue application were discovered in 2000 and 2001 during a review of the Letters Patent and a product design relating to the subject matter of the Letters Patent.

I hereby declare that the above error and every other error in the patent application which was corrected in the present reissue application, and is not covered by the prior declaration submitted in this application, arose without any deceptive intention on the part of the applicant.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made
